

Deluxe Boarding Ladder Installation Instructions

1) Place ladder holder assembly on the bow of the hull. Be sure the holder assembly sits flat on top of the black gunnel tubes and is pulled back just enough so it touches the keel tube/center tube of the hull.

(Please make sure the gunnels tubes are located within narrow channels located underneath the bow nose before going to step 2).

2) Using the pre-existing holes in the nose piece as a guide, drill a 9/32 dia. hole through each side of the hull.

3) From the outside of the boat install the log Tee bolt through bow nose and hull of boat attach a washer and wing nut from the inside of the boat and tighten by hand.
